

# SAP Note 1666756 - BW-BPS/SEM-BPS for SAP BW 7.3, powered by SAP HANA DB

Note Language: English

Version: 3 Validity:

Valid Since 08.03.2012

## Summary

### Symptom

You want to use BW-BPS (previously SEM-BPS) for SAP NetWeaver Business Warehouse 7.3, powered by SAP HANA.

### Other terms

BW-BPS, FIN-SEM-BPS, SEM BPS

## Reason and Prerequisites

### Solution

Since BW-BPS or SEM-BPS is an integral part of SAP BW as of SAP BW 3.5 (NetWeaver 2004), existing BPS scenarios are still supported in principle in SAP BW 7.3, powered by SAP HANA DB.

Due to the fact that Integrated Planning in BW (BW-IP) provides the follow-on solution for BPS within BW and the use of In-Memory features of SAP HANA is a clear part of the product development roadmap (for more information about this, see SAP Note 1637199), SAP HANA-specific optimization is no longer provided for BPS. BPS uses this database in the same way as a classic database when using BW on SAP HANA.

Furthermore, the limitations in relation to the use of third-party software in the application that are described in SAP Note 1554952 also exist for BW-BPS for SAP BW 7.3, powered by SAP HANA DB.
