Notes:

1. There are limitations with Excel 2007 with BPC 7.0. Please see note: 1288848
2. There are limitations with Excel 2010 with BPC 7.0.
3. For BPC 7.5, SAP recommends using Windows Server 2008 64 bit over Windows Server 2003 64 bit. Otherwise, support is limited
4. 64 bit operating systems (OS) requires WOW to be enabled which has performance limitations
 - The AmyuniPDF converter does not support a 64-bit client operating system
 - Please see note 1537412 for client Installation with Internet Explorer 64 bit
 - The combination of Windows 7 and .NET 1.1 is not supported,, so with BPC 7.5, Windows 7 (32 and 64 bit) is supported with .NET 2.0
5. Requires the use of windows server 2008 R2
6. To run BPC 7.0 on a SQLServer 2008 server environment, Microsoft SQL Server 2008 Feature Pack (Microsoft SQL Server 2005 Backward Compatibility Components) should be installed on the Application server. See note 1289671 for further details.
7. According to EPM Add-In requirements, please refer to the document EPM Add-In for Microsoft Office Installation Guide
8. An enhancement was made in BPC 10 SP07 to support Microsoft office 2003
